

Publishing your journal article

How to check the status of your submitted paper

- 1 Log into your Sage Track/ScholarOne Manuscripts account for the journal you have submitted to.
- 2 Click on the "Author" tab, between "Home" and "Review".
- 3 Under the Author Dashboard Section, click on "Submitted Manuscripts".
- 4 On the right you should be able to see a table and on the left of this table you can view the status of your paper under the "Status" column.

When the status of your article changes, you are usually notified by an automated email.

Please note that each journal follows its own workflow, so depending on the journal you have submitted to there can be some variance in what stages are shown under "status".
