**Introduction: An Invitation to Turn Around 1**

Why Strengths-Based Instruction? 2

Who Is Strengths-Based Mathematics  
Teaching For? 3

What Are Mathematics Strengths We See  
in Students? 7

Exploring Your Own Math Identity 10

Moving to a Strengths-Based Perspective 11

*Practices That Build a Strengths-Based Cycle 14*

*The Five Teaching Turnarounds 17*

**TEACHING TURNAROUND ONE:  
IDENTIFY YOUR TEACHING STRENGTHS 22**

---

**1. Identify Your Teaching Strengths 23**

What Do You Believe About Your Students'  
Learning? 26

What Do Students Think You Believe? 31

Summary 35

**TEACHING TURNAROUND TWO:  
DISCOVER AND LEVERAGE YOUR  
STUDENTS' MATHEMATICAL STRENGTHS 38**

---

**2. Turn Around Mathematical Proficiencies,  
Processes, and Practices 39**

Building Mathematical Proficiency Through  
a Strengths-Based Lens 40

Building Mathematical Practices and Dispositions  
Through a Strengths-Based Lens 45

*Building Strengths in Problem Solving 46*

*Building Strengths in Communication 50*

*Building Strengths in Reasoning and Proof 51*

*Building Strengths in Connections* 53  
*Building Strengths in Representations* 56  
Summary 60

### **3. Your Students' Mathematics Content Strengths 61**

Building Mathematical Content Knowledge Through  
a Strengths-Based Lens 62  
Building and Recognizing Strengths in the Meaning of  
Number and Operations and Algebraic Thinking 63  
*Count to Show How Numbers Represent Quantity* 64  
*Write Equations to Represent Word Problems* 65  
*Develop Strategies to Add, Subtract, Multiply, and Divide* 69  
Building and Recognizing Strengths in Understanding  
Number and Operations: Fractions 74  
Building and Recognizing Strengths in Geometry 78  
*van Hiele's Geometric Conceptual Understanding Level 0:  
Visualization* 79  
*van Hiele's Geometric Conceptual Understanding Level 1:  
Analysis* 88  
Summary 90

## **TEACHING TURNAROUND THREE: DESIGN INSTRUCTION FROM A STRENGTHS-BASED PERSPECTIVE 92**

---

### **4. Turn Around Grouping Practices 93**

Planning Effective Strengths-Based Instruction 94  
Fixed Versus Flexible Grouping Practices 101  
*Long-Term Whole-Class Ability Grouping* 101  
*Small-Group In-Class Ability Grouping* 103  
*Flexible Grouping Strategies* 104  
Strengths-Based Flexible Grouping Practices 104  
*Mixed-Strength Whole-Group Instruction* 104  
*Homogeneous-Strength Small Groups* 111  
*Targeted Small-Group Instruction Through a  
Strengths-Based Lens* 113  
Summary 120

### **5. Turn Around Tasks 121**

High Cognitive Tasks 122  
Turn Around a Task: Designing a Personalized,  
Strengths-Based Instructional Task 127  
*Individualized Personalization* 132  
*Funds of Knowledge* 135

Three Perspectives for Adapting a Task to Support Students' Strengths 136  
*Access and Equity* 137  
*Mathematical Goals* 138  
*Formative Assessment* 138  
Promoting Strengths Through Parallel Tasks 139  
Exploratory Discourse About Tasks 144  
Math Amendments: Revising the Task Solution 146  
Summary 147

## 6. Turn Around Feedback 148

The Importance of Feedback in a Strengths-Based Classroom 149  
Teacher-to-Student Feedback From a Strengths Perspective 149  
*Teacher-to-Student Feedback Loop* 152  
*Elements of Teacher-to-Student Feedback* 155  
Student-to-Teacher Feedback From a Strengths Perspective 163  
*Prior to the Lesson* 163  
*During the Lesson* 163  
*Closing the Lesson* 164  
Student-to-Student Feedback From a Strengths Perspective 165  
Classroom-Based Formative Assessment and Feedback 167  
*Observation* 170  
*Interview* 171  
*Show Me* 171  
*Hinge Question* 172  
*Exit Task* 173  
Summary 175

## TEACHING TURNAROUND FOUR: HELP STUDENTS DEVELOP THEIR POINTS OF POWER 176

---

## 7. Turn Around Students' Identities 177

Windows and Mirrors 179  
*Our Teacher Mirror* 182  
Translation Task 182  
Don't Miss an Opportunity to Recognize a Student's Points of Power 184  
Students' Productive Dispositions 188  
Students Self-Analyze Their Strong Points 189  
Summary 193

## **TEACHING TURNAROUND FIVE: PROMOTE STRENGTHS IN THE SCHOOL COMMUNITY 194**

---

### **8. Turn Around Professional Learning Communities 195**

- Supporting Teachers' Strengths 195
  - The Appreciative Inquiry (AI) Framework* 197
  - Whole-School Agreement* 200
- Summary 205

### **9. Turn Around Family Communication 209**

- Engaging Families in Strengths-Based Talk 212
- Incorporating Family and Community Strengths 214
- Working Together to Share Mathematical Ideas 216
- Family Math Resources 220
- Conferences With Family Members From a Strengths-Based Perspective 225
- Summary 226

### **Epilogue: Turn Around Reflection 227**

### **References 229**

### **Index 241**
